# DATA CLYMER

HEALTHCARE ANALYTICS WITH DATA CLYMER

IMPROVE YOUR DATA HEALTH WITH MODERN ANALYTICS

Gain a 360-degree view of your patients with a targeted modern data solution for healthcare organizations that seamlessly integrates with external legacy health systems. Data Clymer helps healthcare organizations within this highly regulated space to design and implement a modern data stack solution that centralizes data from HL7, EHR, and other disparate data sources into a single source of truth, removing data silos, accelerating analytics, and improving decision-making across all departments.

WHAT IS A HEALTHCARE ANALYTICS SOLUTION?

In the complex world of healthcare, proper data governance, visibility, and timely access to data is vital. In order to deliver the best possible patient experience, a targeted, cloud-native analytics solution is necessary for hospitals, clinics, pharmacies, rehabilitation centers, mental health providers, and other healthcare organizations in order to extract the most value from their data.

WHAT A HEALTHCARE ANALYTICS SOLUTION CAN HELP YOU IMPROVE:

- Patient Experience
- Operational Performance
- Supply Chain Processes
- Fraud Detection
- Data Security

SOLUTION BENEFITS:

HIPAA-compatible Data Stack

Apply a secure, encrypted, and flexible solution that gives healthcare organizations full confidence and control of their data.

Real-time Reporting

Save time and reduce human error by implementing dashboards to increase data visibility, help optimize resources, uncover trends, and improve operations.

Patient 360

Share relevant patient demographics, insurance information, and clinical data between providers in a secure manner that helps healthcare organizations improve patient experience and retention.

Master Provider

Integrate provider data from multiple sources into one golden record that enables healthcare data teams to securely share and democratize provider data across their organization and service vendors.

WHY DATA CLYMER?

Data Experts	Modern Data Technologies	Tailored Solutions	Personalized Service
Our data team is skilled in applying healthcare analytics best practices to help improve resource capacity and performance.	Our team of engineers and analytics experts will integrate all necessary healthcare data sources and develop a single source of truth for all patient data.	Healthcare providers benefit from a tailored analytics data model to support reporting and dashboard visualizations.	Our services and delivery are based on our values of transparency, trust, and collaboration, providing our clients with a high quality and exceptionally personalized level of service.

"*Every time I need a team of trusted data experts, I turn to Data Clymer. They were able to come in and quickly uncover and resolve key data issues, thereby saving us time and money. Data Clymer's team is hands down the best in the business.*"

— JASON LAPP, CEO, BEAUTIFUL.AI

FEATURED HEALTHCARE ANALYTICS CUSTOMERS:

Data Clymer provides full-stack cloud data engineering solutions that reduce data stack complexity and improve data impact. Our experienced team of consultants are certified data engineering and analytics experts and provide a highly-personalized level of service to leading data-driven companies like Peet's Coffee, Autodesk, and the Las Vegas Raiders.
