

MANUFACTURING ANALYTICS WITH DATA CLYMER

SAVE COSTS AND IMPROVE EFFICIENCIES WITH MODERN DATA ANALYTICS

Start driving operational efficiencies with a modern data solution for manufacturing companies. Data Clymer empowers manufacturers to unlock the value of data by centralizing raw data from disparate sources into a single source of truth. Optimize end-to-end processes with visibility into the entire supply chain process, from production to delivery to customer usage.

WHAT IS A MANUFACTURING ANALYTICS SOLUTION?

In the complex manufacturing industry, modernization is key in order to remain competitive. Manufacturing companies have access to immense amounts of data, yet many still struggle to use this data in an actionable way. Moving from legacy on-premises data systems to modern cloud technologies can help manufacturers gain a single source of truth, improve decision making, scale business processes, and reduce costs.

DATA CLYMER MANUFACTURING SOLUTION PARTNERS:

ANSWER QUESTIONS LIKE:

- How can I minimize overhead?
- What is my optimal inventory level?
- Which products have the highest demand?
- What factors are causing quality issues?
- What is the expected lead time for each supplier?
- How do I understand and optimize cost of goods sold (COGS)?

WHAT A MANUFACTURING ANALYTICS SOLUTION CAN HELP YOU IMPROVE:

- Production & Operational Efficiency
- Supply Chain Analytics
- Inventory Analysis
- Risk Management
- Demand Planning & Forecasting
- Capacity Planning
- Quality Control

SOLUTION BENEFITS:

Cost Reduction

Analyze demand patterns, optimize inventory levels, and amend production schedules to reduce carrying costs, avoid overstocking, and decrease labor costs.

Time Savings

Save your data team up to 65% of their time so they can focus on strategic business priorities.

Single Source of Truth

Gain a 360-degree view of your products by centralizing all product data in a cloud data warehouse, improving end-to-end visibility.

Business Scalability

Modernize your business and prepare for future growth with a scalable data architecture and processes.

WHY DATA CLYMER?

Data Experts	Modern Data Technologies	Tailored Solutions	Personalized Service
Our data team is skilled in applying manufacturing analytics best practices to help improve resource capacity and performance.	Our team of engineers and analytics experts will integrate all necessary manufacturing data sources and develop a single source of truth for all product data.	Manufacturers benefit from a tailored analytics data model to support reporting and dashboard visualizations.	Our services are based on our values of transparency, trust, and collaboration, providing our clients with a high quality and exceptionally personalized level of service.

“5 stars! Data Clymer are trusted data experts. Their team excels at engineering our full data stack and helps deliver actionable insights that improve our bottom line. I’d recommend Data Clymer to any organization wanting to get the most out of their data.”

— CHRIS GAAL, SR. DIRECTOR OF BUSINESS APPLICATIONS, PEET’S COFFEE

FEATURED MANUFACTURING ANALYTICS CUSTOMERS:

Data Clymer provides full-stack cloud data engineering solutions that reduce data stack complexity and improve data impact. Our experienced team of consultants are certified data engineering and analytics experts and provide a highly personalized level of service to leading data-driven companies like Peet’s Coffee, Harvard Business Publishing, Vida Health, and the Big Ten Conference.
